NOTE FOR: Executive Assistant, EXDIR
Executive Officer, DDA

This note passes on some correspondence and requests some assistance from the Office of Security.

The DDCI received the attached letter recently. My understanding is that the Office of Security is familiar with the situation cited by the author.

Please conduct the reconsideration, of an earlier decision to revoke the author's security clearances, that he requests. My understanding is that Security will arrive at a position -- as a result of this reconsideration, and then send a letter back to the author explaining the decision. I gather that the rationale, for the new position -- whatever it turns out to be, will be part of the letter. (If this concept is in error, please let me know.) I would appreciate getting a copy of the letter when it is sent.

If there is anything I may do to help you, or the Office of Security, please call.
